DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-15, 18, and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Kiely et al 5,473,035.

The cited, common-inventor, prior art discloses method for preparing poly(glucaramides), particularly stereoregular head, tail poly(heterohydrocarbyleneglucaramides), such as claimed, comprising esterification of the amidoamino acid in an alcohol, followed polymerizations as claimed. These polymers have Mn in the claimed ranges. See columns 2-4, and Examples 3, 9, and claim 7. It is the Examiner's position that the claims have features and characteristics as claimed.

2. Claims 16, 17, 19, 20, 22, and 23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

3. References listed on PTO-1449 have been made part of the record.
